Karim Abdallah

ANDROID DEVELOPER

karim.abdallah.eg@gmail.com | Giza, Egypt.

SUMMARY

Motivated Android Developer with hands-on experience in building native Android applications using Kotlin, Java, XML, and Jetpack Compose. Familiar with Android SDK, application architecture patterns (MVC, MVP), REST API integration, and database management. Passionate about developing clean, user-friendly applications, continuously improving technical skills, and contributing to collaborative development teams.

PROFESSIONAL EXPERIENCE

Android Developer

Freelancer – Jun 2024 – present

- Developed native Android applications using Kotlin, Java, XML, and Jetpack Compose.
- Designed responsive application layouts and custom UI components to improve user experience.
- Designed and implemented application architecture using appropriate architectural patterns.
- Developed backend functionality using PHP and SQL and integrated Android applications with REST APIs.
- Implemented data security and encryption mechanisms to protect user information.
- Managed source code and version control using Git and GitHub.
- Published Android applications on Google Play.

SKILLS

Android Development	Jetpack Compose · Android SDK · Activity Lifecycle · Fragments · Intent Filters · Context · Permissions · ViewModels · Kotlin Coroutines · Room DB · DataStore · Retrofit · Okhttp · REST API
Architecture & Programming	MVC · MVP · MVVM · OOP · Data Structures · JSON · Computer Science
IDEs & Development Tools	Android Studio · IntelliJ IDEA · PHP Storm · VS Code · Postman · Gradle · Git · GitHub · JMeter
Programming Languages	Kotlin · Java · XML · PHP · SQL
Databases & Backend	MySQL · MongoDB · Firebase
UI & Monetization	Material Design · Google AdMob
Basic Knowledge	KMP · C++ · C# · Python · HTML · CSS
Soft Skills	Teamwork · Communication Skills · Problem-Solving · Adaptability

EDUCATION

Bachelor of Arts (B.A.) – Sociology
Cairo University
2020 – 2024 – Giza, Egypt

PROJECTS

Rock Paper Scissors, Simple Game for Practice	Jul 2024	[View]
Hackathon Challenge, Google Search Clone	Dec 2024	[View]
WebSocket Client, Native Android Library	Feb 2023 – Mar 2023	[View]
Smart BadgeView, Native Android Library	Oct 2023 – Nov 2023	[View]
Muqataa, Barcode Scanner Android App	Oct 2023 – Oct 2023	[View]
Coding Oasis, Educational Android App	Jan 2022 – Jun 2022	[View]
Morse Code, Open-Source Android App	June 2022 – Jul 2022	[View]

Training and Certificates

The Complete Kotlin Development.	Udemy	[View]
The Complete Android Development.	Udemy	[View]
